

Goeun Choi

Product Designer

Ottawa, ON | 613-804-1004 | goeunchoi9090@gmail.com | Portfolio: goeunchoi-designer.github.io/

Summary

Product Designer and UI/UX Designer with 5+ years of experience designing B2B web apps, dashboards, and marketing assets in Figma. Strong skills in components, auto layout, prototyping, design systems, wireframes, and developer handoff. Proven results include a 94% increase in NPS and 18% improvement in retention from a mobile-first redesign. Experienced in landing pages, sales decks, accessibility (WCAG), HTML, CSS, Webflow, and AI-powered design tools, collaborating with product and marketing teams in remote settings (Eastern Time),

Experience

Web, graphic, and product Designer, Canadian Chamber of Commerce, Ottawa, ON | Oct 2024 – Present

- Designed screens, UI, and digital experiences for web and B2B products in Figma and Adobe Creative Cloud, plus landing pages, email graphics, infographics, one-pagers, sales decks, and presentation decks, following brand guidelines.
- Built the visual identity and data visualization system for BDLNow, translating 45 economic indicators into clear infographics and dashboard-style visuals that drove 16% more product-page traffic and 20% higher content engagement.
- Built and maintained a design system with component libraries, editable templates, and a digital asset library, applying accessibility best practices (WCAG) such as colour contrast, readable typography, visual hierarchy, and alt text.
- Collaborated with product, marketing, communications, research, and web teams to turn requirements into design concepts, present solutions, and iterate quickly on feedback across multiple small and mid-size projects, including motion graphics, short-form video, and social media content.

Multimedia Graphic Designer, Richcraft Homes, Ottawa, ON | May 2021 – Mar 2024

- Led creative execution for the Gateway real estate brand launch, developing the visual identity, colour system, templates, and campaign assets across digital, print, and signage, reaching 4,100+ users with 35% engagement and an estimated 15% conversion rate.
- Maintained and updated 11 consumer-facing websites and landing pages, delivering responsive web content on schedule in partnership with marketing teams, using HTML, CSS, and WordPress.
- Designed brochures, advertisements, one-pagers, infographics, sales presentations, social media content, and email campaigns in Photoshop, Illustrator, and InDesign, plus campaign video and motion graphics in Premiere Pro and After Effects, prepared for print and digital production.

Product designer, BriefBuy, AI Product Design and Frontend, Remote | Apr 2026 to May 2026

- Designed and built an AI running shoe comparison web app prototype in four weeks with a data engineer and a frontend developer, creating the UX structure, visual system, and design tokens in Figma.
- Designed a two-panel layout with a fixed decision panel, runner profile form, shoe detail modal, and side-by-side comparison view, then implemented the frontend in Next.js and Tailwind with Claude API integration.
- Added a Version 2 history board so users can save, revisit, and remove comparisons after identifying that the first build lost all progress when the tab closed.

UI/UX Designer, Pindle (Contract), Remote | May 2022 – Aug 2022

- Redesigned the Pindle website into a mobile-first, responsive experience in Figma, creating wireframes and prototypes based on user interviews and user feedback, driving a 94% increase in NPS and 18% improvement in retention, and presenting design rationale to the CEO.

Skills

- **Product Design and UX:** Figma, components, auto layout, prototyping, wireframes, UI design, UX design, user flows, multi-step flows, forms, dashboards, design system, design tokens, component libraries, design specs, developer handoff, engineering handoff, user feedback, user interviews, usability, iteration
